

Covacrete Coloured Resurfacing Compound

Reference: TDCOVA
Date: 27.07.03
Page 2 of 2

Features

Covacrete Resurfacing Compound when mixed with Lokcote CC and applied as the Covacrete System offers the following features:-

1. Non yellowing
2. Excellent durability with little maintenance
3. Excellent adhesion to most concrete substrates within the building industry.
4. Being water based, Covacrete provides convenient water clean up.
5. Non slip finish if applied in a specific way.
6. Wide range of colours and the ability to create a variety of finishes.

Storage

Store in cool, dry area in unopened bag.

Shelf Life

1 year, if kept unopened and stored in cool, dry conditions. After this time, product should be checked to ensure it's suitability for use (no lumps).

Disposal

Only by licenced contractor for disposal of hazardous substances or as required by local authority.

Limitations

Do not apply the Covacrete system in temperatures below 10 degrees Celsius as curing time is significantly delayed. It is not advisable to apply onto very hot surfaces (greater than 40°C) as this can affect cure. Therefore, under very hot conditions it is advisable to shade the application area..

Precautions

Before use, read Material Safety Data Sheet for this product.

All approved safety equipment must be worn including goggles and mask. Protect adjacent areas from colour contamination.
